

PINTU KUMAR

Full Stack Developer | MERN Stack | Real-Time & Scalable Web Apps

mrkumarr12@gmail.com | +91 8084018064 | Bhopal, India | github.com/justkmr | linkedin.com/in/pintu-kumar-12x

CAREER OBJECTIVE

Final-year CS student seeking a Full Stack or Backend Developer role where I can contribute to building scalable, real-time web products. Experienced in end-to-end MERN development — from architecting REST APIs and authentication systems to deploying production-ready apps on Vercel and Render. Active open-source contributor. Looking to grow within a product-driven engineering team that values clean code and fast iteration.

SKILLS

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, Shadcn UI, Framer Motion, GSAP, Lenis Scroll, Recharts, HTML5, CSS3, JavaScript

Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT, Bcrypt.js, RBAC

Database: MongoDB, SQL

Real-Time & Payments: Socket.IO, WebSockets, Stripe, Payment Gateway

DevOps & Tools: Git, GitHub, Postman, Vercel, Render, Cloudinary, GitHub Actions (CI/CD), VS Code

Currently Learning: Redis, Docker

PROJECTS

ZestCo — Full Stack Real-time Grocery Ecosystem

zestco.vercel.app

Tech Stack: Next.js 15, Socket.IO, Redux Toolkit, Auth.js, MongoDB, Stripe, Recharts

- Built a real grocery platform with 15+ registered users, 10+ product categories, and live orders processed via Stripe Payment Gateway.
- Engineered strict RBAC using Auth.js (v5) — user, delivery, and admin roles are permanently assigned at registration; cross-role login returns 403 forbidden.
- Implemented real-time live chat during active deliveries using Socket.IO and WebSockets — customers and delivery partners communicate instantly.
- Single-admin architecture ensuring no role override is possible — all dashboard access is role-gated with server-side validation.

RadiAntiX — Full Stack Job Portal

job-portal-project-q2jt.onrender.com

Tech Stack: React.js, Node.js, Express, MongoDB, Redux Toolkit, Cloudinary, Multer, Recharts

- Deployed job portal with 20+ registered users, 10+ real job postings, and 20+ actual applications submitted on the platform.
- Implemented strict RBAC — student accounts attempting recruiter actions receive a 'You don't have permission for this role' response; roles cannot be switched post-registration.
- Integrated Cloudinary and Multer for reliable resume and profile media uploads, eliminating local storage limitations.
- Built Recharts analytics dashboard for recruiters to track job postings, applicants, and hiring activity in real time.

Paradox Portfolio — Personal Developer Portfolio Website

the-kumarr.vercel.app

Tech Stack: Next.js, TypeScript, Framer Motion, GSAP, Lenis Scroll, Next-Themes, GitHub Calendar, Web3Forms, Vercel

- Built a modern animated developer portfolio using Next.js and TypeScript, with GSAP and Framer Motion for scroll-based and micro-interaction animations.
- Integrated Lenis Scroll for buttery-smooth scrolling and Next-Themes for seamless light/dark mode switching.
- Added a live GitHub contribution calendar to showcase coding activity, along with Web3Forms for a serverless contact form.
- Deployed on Vercel with a fully responsive, performance-optimized UI built for fast load times and smooth navigation.

OPEN SOURCE CONTRIBUTIONS

- Contributed to 3+ open-source repositories on GitHub, including bug fixes, UI improvements, and small feature additions.
- Collaborated via pull requests following project contribution guidelines, code review feedback, and Git workflow best practices.

ACHIEVEMENTS

- 2026 — Won 1st Place: University Full Stack Project and Presentation
- 2024 — Secured 1st Place Among 10+ participants in the University Web Development Project
- 2022 — Awarded Best Student for leading community-driven Social Welfare initiative during college

CERTIFICATIONS

- Full Stack Web Development — Apna College (2025)
- C and C++ Programming — Excellence Academic Center (2022)

EDUCATION

B.Tech in Computer Science — Patel Group of Science and Technology | 2022–2026

Higher Secondary (XII) — Bishnugarh Inter College | 2020–2022

Secondary School (X) — Loyola English Medium School | Feb 2020
